## CLAMS - NATURAL FIBRE

**Na:Pac**<sup>TM</sup>  
\* australia \*

Na:Pac products are manufactured from renewable plant materials, such as sugar cane and reed. The natural materials make Na:Pac products compostable and provide an environmental choice while offering all the traditional qualities and durability, making it ideal for daily foodservice in a variety of industries. Suitable for use in the microwave and refrigerator, for boiling hot soups to cold salads. 100% COMPOSTABLE BAGASSE.

enviroCHOICE

Envirochoice clams are made from natural fibres that are compostable and biodegradable. The materials are renewable and offer durability with insulation and microwave, refrigerator, hot and cold food functionality.
